

**Summer Field School [Online] on  
MOUNTAIN ECOSYSTEMS AND RESOURCE MANAGEMENT  
19-28 September, 2021**

Name of Faculty Member (Facilitator)	Dr. Matej Ogrin Dr. Tatjana Resnik Planinc Dr. Mojca Ilc Klun
Technical Session Group No.	7.2
Technical Session Group Name	SDGs & Mountains
Topic	Mountain Oriented Education - Alpine School Model
Sub-Topics	
Synopsis (if any) (max. 100 words)	<p>The lecture deals with mountain-oriented education in both primary and secondary schools, focusing on the Alpine School Model, which was developed within the YOurALPS project. Mountain-oriented education offers a foundation for education for sustainable development, which we can achieve through the implementation of the Alpine School model. Alpine School Model was created in collaboration with alpine educators and sustainable development experts focusing on alpine-related issues, but can easily be transferred and modified to other mountain areas</p> <p>It aims to introduce the possibilities and different approaches teachers and other educators can bring to their work and to encourage them to join the Alpine School Network together with their students. In this regard the facilitators are convinced that formal education alone, regardless of the quality, is not sufficient, but must be continued through the whole of the adult life, since only in this way can we expect positive and desired results that will be reflected in everyday decisions.</p>
