

**Summer Field School [Online] on  
 MOUNTAIN ECOSYSTEMS AND RESOURCE MANAGEMENT  
 Ivano-Frankivsk Region, Ukraine :: 19-28 September, 2021**

**DELEGATE PARTICIPANT'S PROFILE**

	<p><b>Dr. Iryna Ignatenko</b>  <i>Associate Professor</i>          Department of Land and Agrarian Law          Yaroslav Mudryi National Law University</p> <p>Kharkiv, Ukraine          Tel: +38-095-396-92-90          +38-097-191-66-12          Email: <a href="mailto:irena.nekosargot@gmail.com">irena.nekosargot@gmail.com</a></p>
<b>Highest Education</b>	Ph.D. (Law)
<b>Personal Statement</b>	<p>Dear colleagues! Further I would like to say a few words in order to present myself as the delegate participant for the forthcoming Summer School on 'Mountain Ecosystems and Resource Management'. From 2006 to 2011 I was a student at Yaroslav Mudryi National Law University (Kharkiv, Ukraine). From 2011 to 2014 studied as a post graduate student at the Department of Land and Agrarian Law of Yaroslav Mudryi National Law University. In 2014 became a PhD with the dissertation on the specialty 12.00.06 "Land Law; agrarian law; environmental law; natural resource law". The dissertation's topic is "Legal principles of land zoning within settlements". Since 2014 I'm working as an associate professor at the Department of Land and Agrarian Law of Yaroslav Mudryi National Law University.</p> <p>I have scientific publications and educational and methodical works (total number - 110). Among them: 7 articles in foreign journals indexed in the Web of Science database; 27 articles in professional journals of Ukraine; 8 articles in foreign journals and 53 theses. Prepared in co-authorship 12 educational publications, as well as 2 monographs. In 2015, I received the diploma of the winner of St. Vladimir Prize for the publication of the monograph "Legal support of land zoning within settlements" in the category</p>

	<p>of legal education and science.</p> <p>I constantly take part in international and all-Ukrainian scientific conferences and seminars. I also have certificates of participation in scientific conferences held in EU countries. Successfully completed internships and training in international programs: 1) scientific internship in law in combination with intensive study of English at the West Finnish Institute in Guittinen (Finland) from 30.01.2017 to 04.02.2017 (108 hours). ); 2) educational and scientific internship "Legal Methods and Education" at the Institute of Oriental Law, University of Technology, Business and Design, Wismar (Germany) from 17.07.2017 to 29.07.2017 (108 hours).</p> <p>The main areas of research: legal regulation of relations on the use, reproduction, protection of land within settlements, legal security of food security and rational land use in the implementation of organic production.</p>
<b>Paper/Presentation Title (Unpublished Research or Review or Field Work)</b>	<i>Current State and Determination of Prospects for the Development of Organic Production in Ukraine</i>
<b>Keywords</b>	Organic products; Agricultural sector; Agricultural lands; Ecologically clean products; Agribusiness; Food security
<b>Abstract (100-300 words)</b>	<p>The article analyzes the modern market of organic products, which, in terms of growing consumer demand for environmentally friendly and safe for human health, is very perspective for Ukraine. The increase in the area of agricultural land allocated for organic production, the number of domestic organic operators, the ever-increasing volume of exports of organic products to other countries indicate a steady trend of growth and further development of this market. However, there is a need to implement a set of measures, among them: improving legal support; formation of the infrastructure of the organic products market; ensuring adequate state support; improving the system of standardization and certification of production, processing, storage and transportation of organic products; introduction of an effective system of control, sale of organic raw materials, its processing, sale of organic products.</p>

	<p>The method of materialist dialectics allowed to consider agrarian relations for the creation of organic agricultural products in development and the relationship with its normative regulation. The method of complex analysis was used primarily to study the features of the norms of various branches of law in the process of determining the place and role of legal regulation of organic production in the system of Ukrainian law. The synthesis method was used to identify obstacles and prospects for the development of Ukrainian organic production. The application of the logical-legal method contributed to the further formation of the conceptual apparatus of research, in particular the legal construction of "organic agriculture". The formal-legal method made it possible to reveal the content of normative prescriptions in the sphere of organic production.</p>
